# WHY SUMMER SCHOOL?

Away from the daily grind of school, the summer holidays give students the time and space to relax and have fun. However, with tougher GCSE/ A Levels and continual pressure on students to achieve higher grades, students are increasingly looking to use some of their holidays to prepare for the year ahead.

Summer School is the perfect solution, providing a balanced programme of learning and fun activities.

## Why Students Want Summer Holiday Revision?

Here are some of the top reasons that students decide to use some of their holiday for learning and revision.

- Opportunity to catch up as not feeling “on track” with studies
- Concerns about achieving high grade requirements for sixth form or university
- Feeling anxious about the next school year and exams
- Lacking in confidence or motivation
- Disappointing end of year exam results

## How Can Justin Craig Help?

Our 5 day summer courses, located at one of our residential centres, provide a relaxed yet stimulating learning environment.

In addition to expert tuition every day, we offer a varied and fun activity programme.

We receive excellent feedback on our Summer School courses, with students telling us that they like:

- the mix of learning and fun, as well as the opportunity to make new friends
- being able to refresh and consolidate knowledge from the previous year
- getting focused help from expert tutors on their specific needs
- studying in small groups as it makes learning easier and more enjoyable
- getting practice, feedback and insights on past paper questions and exam technique

Designed for current Year 10 and 12 students, our Summer School courses are an excellent mix of learning and fun. With a wide range of subjects, course dates and centres, students can choose where and when they want to study.

Most students attend on a residential basis as it allows them to make friends and get the most out of the experience, enhancing their ability to learn.

## All our Summer School courses are structured similarly with:

- five days of expert tuition, led by experienced yet friendly tutors
- teaching tailored to the learning needs of the individual students
- small class sizes (maximum 8) to facilitate learning and camaraderie
- a varied daily activity programme, suitable for all students
- some free time to relax with new friends and enjoy the centre's facilities

**Our priority is to ensure students receive the highest quality tuition, meeting their individual needs, whilst also enjoying the overall learning experience.**

**We do this by:**

- seeking advance information on the topics/skills that students want to cover
- ensuring tutors are aware of detailed student needs so they can adapt each course appropriately
- employing only the best tutors, with the knowledge and skills to create a vibrant, inclusive learning environment
- providing on-site pastoral care through our team of professional yet friendly Course Assistants, led by one of our highly experienced Course Directors

**Course formats vary slightly depending on the level, reflecting the different demands of A level and GCSE.**

**GCSE:**

One day each of Physics, Chemistry, Biology, Maths and either English Language or Literature.

**A Level:**

Five days focused on the student's chosen subject, building knowledge, skills and exam technique.

“ **Superb A-level residential revision course in Regent's University campus. I don't know where you get such excellent teachers but thank goodness you do. My son has learned a lot and gained massive confidence.** ”

September 2018

In addition to academic tuition, Summer School includes an Activity Programme. This has been designed so that there is something for everyone, it runs every day after classes in late afternoon and early evening.

Activities vary from centre to centre but may include fun activities such as a BBQ, campfire, film night, team games or a theatre trip. We also offer students help and advice on other relevant topics such as student well-being or UCAS.

Outside the organised activities, all centres have outdoor space for students to enjoy, either for a game of football or just to relax with friends.

# OUR CENTRES

We offer a choice of 3 centres for Summer School, all of which are well located, with good facilities and are easy to reach by car or public transport. All centres offer accommodation in comfortable bedrooms, with single or twin occupancy options.

All Nations College

Regent's University

Denstone College

All Nations College, near Ware, Hertfordshire, is set in 12 acres of beautiful grounds and woodland. As well as full access to the grounds and football field, students enjoy a supervised camp fire and BBQ at this centre.

Regent's University is in the heart of Regent's Park in central London. With 11 acres of private gardens, the estate is a secluded haven in which students can relax. A visit to Regent's Park Open Air Theatre may also be available.

Denstone College, near Alton Towers, in rural Staffordshire, is a beautiful historic boarding school set in well kept grounds. Students will have access to the school's grounds and facilities, including a climbing wall and swimming pool.
